UT Austin Awards Services Agreement to SIPX
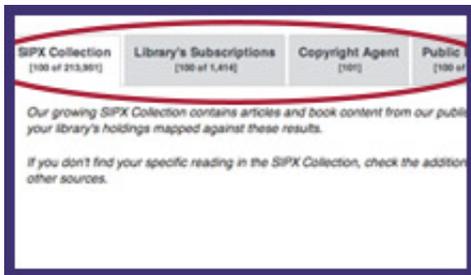

In February, **SIPX was selected to be the sole-source provider of digital content clearance services for UT Austin's growing pool of online learning initiatives.** This selection, the result of an extensive RFP process, follows our support of two initial UT Austin MOOCs on the edX platform in Fall 2013. We are excited to **partner with another leading institution** in enabling the broad and easy use of digital content to enrich projects that extend the reach and effectiveness of higher education.

The SIPX Content Collection Continues to Grow

Each week we add **more searchable content** to our readings database. We now have more than **4,000,000 document items** live in the **"SIPX Collection"**, with full metadata and PDFs, from over 25 top academic publishers. We also continue to grow our partnerships with leading publishers in their respective fields: **Ashgate & Gower, OECD, Purdue University Press, University of Iowa Press** and **Wolters Kluwer Health** have all become general SIPX publishing partners.

Inaugural Publisher Advisory Board Session Convened in Philadelphia

Aligned with the ALA midwinter meeting, we held **our inaugural face-to-face Publisher Advisory Board** meeting. Despite tough Philadelphia weather, the room was packed and the conversation was lively and informative.
